EDUCATION

California State University East Bay — Hayward, CA
Bachelor's of Science in Computer Science — *Aug 2020 – May 2022*
Awards: Latinos in Technology Scholarship; GPA: 3.8

Mission College — Santa Clara, CA
Associate's of Science in Computer Information Systems — *Aug 2017 – May 2020*
MESA alumnus;   HSI undergraduate research fellow

EXPERIENCE

Software Engineer — Nov 2022 – Present
Photo USA Corp | React.js, Vue.js, Node.js, JavaScript, Ruby, Ruby on Rails, MySQL — *Fremont, CA*
- Developed clean, efficient, and well-documented code for implementing new features and enhancements in an e-commerce website using advanced technologies like Vue.js, Node.js, MySQL, and Ruby on Rails.
- Created a seamless integration with the Etsy v3 API for our e-commerce website which enabled automated order processing, streamlining the flow of orders from Etsy shop owners' stores to our website leading to an enhanced user experience.
- Devised and implemented an automated order processing system for a major client, significantly improving efficiency and saving valuable time for sales personnel by 30%.
- Managed and monitored websites, APIs, and order management systems.

Frontend Developer — June 2022 – Nov 2022
Inkfluencer.io | React.js, JavaScript, ChakraUI, Git, Figma — *San Jose, CA*
- Translated design wireframes into high-quality React components using clean, efficient code.
- Leveraged the Chakra UI component library to ensure consistent and visually appealing styling across the application.
- Collaborated closely with web designers and other developers in an agile team environment, utilizing Git version control and Figma design tools to ensure smooth collaboration.

MESA Math and Java Tutor — Aug 2022 – Nov 2022
Mission College — *Santa Clara, CA*
- Provided individualized tutoring in Java programming and Algebra through Calculus 2 to first-generation, low-income community college students.
- Created comprehensive lesson plans and coordinated weekly workshops in Pre-Calculus and Calculus 1 to improve students' study skills and proficiency in mathematics.

PROJECTS

Instruments Bazaar | Live Demo | *React.js, Next.js, Sanity CMS*
- Developed a headless CMS e-commerce website using Next.js, React.js, and Sanity as the backend.
- Leveraged the power of Sanity CMS to efficiently manage content and handle data storage, enabling easy updates and scalability.
- Successfully integrated the Stripe API to ensure secure payment processing, enhancing the website's reliability and providing a streamlined checkout process for customers.

Personal Website | luismorfin.com | *React.js, HTML, CSS, MUI*
- Developed a personalized portfolio website to showcase information about myself, including my skills, projects, and experience.
- Leveraged React libraries and honed my proficiency in creating and managing React components, enhancing the functionality and interactivity of the website.

TECHNICAL SKILLS

Frontend: JavaScript, HTML/CSS, React.js, Vue.js
Backend: Node.js, Express.js, Ruby on Rails, Sanity Headless CMS
Database: MySQL, MongoDB
Developer Tools: GitHub, Visual Studio, Postman, Clickup, Figma
Other Languages: Ruby, Java
